

SUB-CONSULTANT SURVEYING AND MAPPING AND ENGINEERING SERVICES FOR HIGH SPEED RAIL

FLORIDA CERTIFIED M/WBE

FDOT CERTIFIED WORK GROUPS
3.1, 3.2, 6.1, 6.2, 7.1, 8.1, 8.2, 8.4, 10.1, & 13.6

CivilSurv Design Group, Inc. is uniquely qualified to serve on the upcoming Florida High Speed Rail Project. This project is one of the most exciting and challenging projects to come to fruition, and we anticipate the Design/Build team will need extensive survey, design, construction, and post-construction services to ensure a successful project.

CivilSurv can greatly strengthen your team. Therefore, we are seeking sub-consultant opportunities in all elements of the project from design and construction to operation. Our contact information is listed at the bottom of the page, and we ask that you note the following **KEY ELEMENTS** of our **HIGH SPEED RAIL SERVICES**:

EXPERIENCE

Our Team has unparalleled experience and expertise for Rail Services, having completed:

- 44 miles of double tracking for the South Florida Tri-Rail
- Comprehensive design, survey and construction services throughout the I-4 corridor
- In-house CSX Rail Safety Training and Certifications

RELATIONSHIPS

Agency approval requires close working relationships with regulatory staff. Our Team has outstanding relationships and are proven consultants for the following agencies

- FDOT District One, Seven and Turnpike
- All corridor utilities (OUC, FPL, Progress Energy, etc.)
- All local governments, including Hillsborough County, City of Tampa, Plant City, Polk County, City of Lakeland, Haines City and City of Kissimmee.

RESOURCES

A Project of this magnitude requires sufficient resources to meet the needs of the Contractors and Designers. No other Team in Florida can offer:

- Fully equipped on-corridor Survey Parties
- 5 - Florida licensed Professional Surveyors and Mappers
- 7 - Florida licensed Professional Engineers and EI's

SERVICES

We offer the total package for a Design/Build Team including:

- Corridor/Route Design and R/W Surveys
- Roadway Design
- Drainage Design
- Construction Inspection
- Planning and Public Involvement

LEADERSHIP

Our Team is well-known, with firmly established reputations in the Florida design and survey community.

KEY PROJECT TEAM LOCATION

This is a multi-County project which requires rapid on-site response. Our Team is strategically located on the mid-point of the project corridor.
